Hello all,

My 2 brothers and I are planning a trip to Montana next year and I'm a bit overwhelmed with all of the aspects of the trip. I have searched this topic and read some on here, however I thought it would be helpful to get some fresh information etc.

Southwest montana is where we're headed, flying into Bozeman. Any thoughts / suggestions on bodies of water, guides, lodging, rental car etc would be greatly appreciated.

Thanks!

JEFF
