Went to the trophy trout section of Codorus Creek.....Started around 11 AM and fished till 5 PM..Started out using Beadheaded Pheasant tails and did really well> Caught over 20 trout. Had 4 or 5 in the 13" to 15" range....Around 4 PM switched over to a tan elk hair caddis to fish to some rising trout and took 90 % of the risers on the caddis. Probably the best day I have had on this stream.
