Look at warm water stocking list in the PAFBC site. You'll have to go back a couple yrs. like 10. These thing grow slow. Musky guys are really right lipped so do as much investigation ya can. Then just throw and throw again. Keep your flies swimming. Alotta guys talk about fish for musky waiting for prime time. If your waiting for prime conditions and "picking your spots" to go your in for a long wait. There are a tell tail "good" times fall, full moon & high water is awesome. But ya gotta get out chase these fish down and make it happen. Don't just talk "do".
