That place got hammered by flash flooding this summer. Obviously the trout are still doing fine! That last rainbow is gorgeous. I got skunked last time I went and haven't been back in a month or so, but used to fish it once or twice a month.

Last year I caught tons of 7-9" rainbows in there. They're all 12"+ now, must have been a great year class because I don't catch too many in other size ranges. And I hear you about the big brown...hooking them there is one thing, landing them is another!
