fished the pasted two night. sat night got down around 8pm. fished in the back up in north jersey. my one buddy picked up a shad then moved to the ocean. was with two spin fishing guy and another guy fly fishing with me. one of the spin guys picked up a bass on his second cast. then it was like every other cast. mostly shorts. m buddy adam who was fly fishing to picked up two bass. I had one good hit couldn't get tight on the line. my other friend who was spin fishing caught two real nice weakies. like 23 inches. was pretty pissed but that's fishing. they were on sand eels.

sunday was like a lake with a full moon. sucked. nothing I knew it once I got out of the car and looked at the water. not one cloud in the sky. after reading reports it seemed everyone was struggling last night.
