Geebee, I do try to support my local fly shop as much as possible but they cater to the trout crowd and have a limited selection of heavier gear. I've had positive experiences with my Rio lines for 5 wt. so I was considering sticking with the brand.

Krayfish, thanks for the suggestion on the Clouser line but I believe its been discontinued at least I'm pretty sure that's what they told me the day I was in there. Never the less it won't stop by and ask. I'll keep the Rio Grand in mind.
