Thank you both for the feedback. I will just stay out of those areas Ron since it is not a hassle I look for. I am also appreciative for the use of your land. I have fished a little around the dam and I've parked behind Benton beer barn and have walked creek up past where west creek comes in. I've had very good luck on that stretch. not sure how close to west creek your land is but that is a beautiful stretch back in there. I will be sure to park at Benton dam and fish down through your area soon. Thank you.
