imho one day non resident licenses should be free - you should have to have one, but lets face it a visitor to the state is probably be going to buy gas, food, drink, lodging, maybe tackle etc. and pay some State tax that way.

Due to work, i am currently non-resident in PA, DE and MA. those licenses plus my Saltwater Reg. costs me \$\$\$ but then I fish a lot - if you want to bring people into the state and into the sport who are only going to fish occasionally then don't penalise 'em !
