This is a little off topic but I agree with PA charging too much for non-resident licenses. My rant is in reference to the Hunting License fees. I was a life long resident of PA for 47 years. I own a cabin and 30 acres, for which I pay taxes. Last year I moved to Delaware and now I have to pay to pay \$105.00 for a non-resident hunting license! According to PA Game Commission, if I owned 80 or more acres, I would qualify for a resident license. I don't get it, what difference does it make if it's 30 or 80? I think it sucks! Not sure I will hunt PA after this year.
