Ok, I think I found a button on my camera when combined with a certain setting took some midge pictures...not the best pictures, but here they are (after only 1/2 a year)

http://www.kodakgallery.com/BrowsePhoto.aspx?PhotoID=336910558373_78576501714

I don't have them matched with the tiers or any recipe info for them, but something we can work on...everyone can claim thier flies and write description / recipes / tying directions / etc.
