]first time posting..... Fished Valley Creek today from the falls up well into little Valley.....Water was very low and clear got out on the water by 7 am but didn't land my first brownie till 11:15am after that seemed like green weenies were the go to (after trying numerous nymph patterns under an indicator) fished till 4:30 pm after landing 4 nicely colored brownies (nothing over 10 inches). wind at times made casting difficult....idk what else more to say like I said first time posting all together and from what I've read so far you guys shouldn't have too much trouble critiquing this report....looking for advice for what i should include in future posting of stream reports since I fish many of the S.E Delco streams and rivers.
