I almost always fish a double nymph rig with a bead head HE, PT or the likes with a midge pattern. I like the Al's rat type on a scud hook. Super easy to tie and seem to work for me atleast. Also like the wound copper body with a wisp of dubbing on a size 20 scud. More like a brassie nymph i think, but no bead.

Also, small egg patterns have been working for me...cream, light pink.
