i think anyone agrees that wherever you go you will have a blast. Montana changed me. i can attribute most of my trout success to this trip. im sure all the guides oout there know how to get you on fish but if you want a suggestion we went out with wild trout outfitters and our guide was Bryce Connery. guy was top notch. put us on fish and taught me a ton. we fished the gallitan river it not the best stream out there but it worked for me. also fished in Wyoming for cuts which was cool to.
