Looking for any advice. Particular spots for wading as both river are on the large side.

Know alittle about the area, my buddy is running point on the planning but thought I would ask for some information.

I will be heading to the area for steelhead (salmon will be pretty much over) Nov 7th- 11th.

Very much looking forward to this trip as I have not gotten out nearly as much as I used too. In the past I would have had about 4-5 steelhead trips under my belt by now but life has been getting in the way.

Thanks in advance for any help you could lend.

Paul

(Work is for Suckers)

I can tell I am out of practice on PAFF- meant to post this in FF locations. Drat.
