After 30+ years of flyfishing, this summer was the first that I ever fly fished for carp. I use a 9' 8 wt. outfit that I bought last winter. I learned a lot, got into tying carp flies and gained a lot of respect for these very spooky fish. I think I only managed to catch 7 or 8 carp this season but am already looking forward to next summer. I ran out of time this summer and didn't even get to fish some spots I located that I know have some big carp. I really enjoyed getting out there just as the sun was starting to rise and fishing for those "mudding" carp. Carpin' is a blast!
