The fishing screen of my phone has:

RiverFlows (USGS and other organizations water gauge data)

Memoires (journal app, can record location and weather for entry)

My Fishing Journal Widget (recording catches)

Sundroid Free (Sun/Moon rise/set)

OruxMaps (online/offline maps and GPS tracking)

RunKeeper (also for GPS tracking)

My Tracks (also for GPS tracking)

Aix Weather widget (2 day forecast, temps, precip., etc.)

NOAA Weather

RadarExpress

Camera

These are Android apps - dunno if there are IOS equivalents.
