I have Cabelas Prestige Plus lines on two of my reels. One is a WFF5, the other is their Warmwater series WFF6. Both have done fine by me and I like that for \$30 they came with welded loops. The Warmwater line has been very versatile. I usually fish Buggers, Clousers, Poppers and the like with it, but found myself in the midst of a Sulphur hatch with it once and it was delicate enough with size 16 Sulphur Parachutes to catch some picky limestone Browns.
