i use the jayL recipe but i do like to add a swivel i use
3 -5 feet amnesia i use the 17 to 20 lb i blood knot it to usually around 3 to 5 feet of 1x which is normally
close to 12 lb mono then i tie a palomar knot onto a small power swivel from that ill tie my tippet usually 2
feet or more if using 2 flies and that ranges from 3 to 5 x depending on water clarity
placing shot on a tag by the swivel
