Most of the flies in that box are size 6, a few of the Gotchas are size 2 I think. I'm going to have a variety of size 2, 4, 6. A guide I know from North Carolina who went on the trip last year recommended those sizes. Most of the flies have small to medium bead-chain eyes. Some of the larger flies have small lead eyes to get down deep when needed.

May cannot come fast enough!
