Well I have been silent lately on here due to the fact of all the challenges that have been getting thrown my way . I am still iffy for sun work is giving me issues with getting off . But I will deff be down Fri and Sat . If I can't make Sun I would greatly appreciate if someone could show the new guys the ropes for me . I will be staying at the beachwalk in Sea Bright Fri night and maybe even sat night work permitting. The rates have went up but you can't really beat the location beach in the front bay in the back with a dock with lights . If anyone has found a better place to stay shoot me a pm . Seems like fishing has finally started to pic up and should only improve over the next two weeks .
