Fall Fish are definitely a fun fish. If I'm not at school, I'll be out on the connie searching for a monster Chubasaurus this winter! It's actually kind of funny. Back about 8 or so years ago when I was around 7, I would catch fall fish and I would think they were relatives to trout. I legitimately called them "Silver Trout". But one day, my old fishing buddy's dad told me it was just a chub. Ruined my life. lol anyways, this so called Rubber-Bugger, is it not made with a saddle hackle and just has rubber legs or both?
