I'm looking for recommendations on fishing the State College area. I have Monday off and would like to go out since the weather is gonna be nice and winter is approaching. I have been fishing Little Juniata lately and would like to try somewhere new in the area or around state college such as Spring or Penns. I have also fished Spruce on one of my trips for a bit with no luck. Anyone have any suggestions on good places to try this time of year or have off on Monday as well and want to meet up? Thanks!
