So I lend a guy my new 10' 6 weight to go steelhead fishing last week. I am suppose to leave Sunday for a 4 day trip and last night he emailed me that he broke the tip on his trip. What is the right thing for him to do? Is it OK for him to get it repaired or is it a "you broke it you own it thing? Now my primary rod is gling to ba a 9' 8 weight weight no back up. He offered me his friends 11 foot 7 weight but it doesn't feel right to borrow a rod from someone I don't know.
