Going to head up to Renovo Pa this weekend to visit a friend. Ill be right at the Bucktail Medical center, almost in the center of Kettle Creek State Park.

Looking for some recommendations for streams in the area. Again im only going to be there to fish for the day. So i plan on fishing for 6-8 hours straight. Id be grateful if some of you could give me some locations to get into some stocked fish as well as some more scenic smaller wild streams. I wouldnt mind hitting up everything and anything in terms of dhalo, stocked, wild, big, small, etc.
