Hunter,

Please note that, when you write a report for this particular forum, you want to include the Stream/County/ Date format in the title (I'll fix this for you shortly). Take a look at the other reports.

In the body of the report, we ask that you include some relevant info about what you saw and what conditions were - water temps, hatches, weather, maybe fishing pressure or what flies worked. You mentioned having some success on scuds, which is good stuff.

We're looking for up to date info on what you saw and experienced that would give useful info to someone planning a visit to that waterway.
