^ I noticed that.

I care about my rods and reels, not so much about my waders and boots past cleaning them (probably why they leak), flies (I can tie more), packs (don't have any, just a chest box)...

I care about my truck. I for dang sure ain't getting mud on the floor by putting the floor mat out on the ground to stand on, or putting a magnetic rod holder on the exterior, all the while scratching the paint underneath the magnet.
