Coincidentally, I just came from this site looking for hooks myself. There seems to be a lot of positive testimonials.

I've bought some hooks from green caddis outfitters and replaced them with allen hooks.

A lot of the hook had a curve in the shank when they should be straight

A lot of the hooks were over bent at the bend of the hook. you have to put them in your vise and pull up on the eye to fix them.

Not very good in the quality control department.

I'll buy allen hooks from now on

Your mileage may vary
