A couple times a year the wife will fish with me. The conditions have to be warm and comfortable with dryfly action. The past 3 years I have taken her to the Delaware to try and catch a nice fish on top and every time conditions have been horrible....wind, cold, rain...perfect for me but terrible for her now she never wants to go to camp, some may find that a blessing and sometimes I do but i just want her to experience that first take on the Delaware.
