Deb's has Troegs on tap.

I was there in the 2nd week of October, but that was pre-spawn, so I can't tell you what it's been like the last few weeks. I caught a lot of fish on Cross Fork in 2 days, as well as on the Hammersley. Things are cold now, though, and it's post-spawn. Whole new ballgame. Honestly, I'd stick to the bigger water. Kettle got a fresh batch of fish in October.
