Fished Conneaut(in OH) and Elk today with my brother. Both streams were in great shape. Hooked into a nice fish at Conneaut which eventually spit the hook. Other than that we didn't have any other hook-ups there.

Our plan B was Elk, and it was a great decision going there! We salvaged the day and ended up catching 8, though 6 of those eight were out of the same run. Just happened to stumble a nice pod of fish(who knows how many, couldn't see them) and had consistant action. Didn't really move around much, just kinda stuck with that one short stretch so I'm not sure how the rest of the stream fished(we were on the upper part). Nice day on the water.....

Streamer guy-

What were you using? I fished Elk on saturday for 8 hours plus and didn't even get a hit! I was so determined and so frustrated all at the same time!!
