wow, this whole thing is disgusting. I really think we are doomed, this bill is going to pass, and this state is going to be set back 100 years regarding it's environment.

this place sickens me.

the mentality shown by heffley is astounding. really, let's not protect a wild resource just so a kid can fish with a worm? I'd honestly be happier if a stream is designated class A, and CLOSED to ALL fishing. at least the resource would be protected. I don't NEED to fish every stream, but dammit, in this day and age, we have the intelligence to protect every stream we can.

crap like this makes me hate the gas industry and it's political pawns even more. scum, simply scum!
