Im going to the same area, you can check with the guys at Slate Run, Wolfes General Store is an Orvis shop. They will know...

LMAO !

sorry guys there are no hatches coming off and no rising fish. i am here (pine) every day. water is cold and slightly high right now. fish have hunkered down for the winter. smaller tribs might produce but last few times out they have slow to nothing. there is a few still spawning too. Streamers and buggers might produce fished slow and deep.
