This bill has not been voted on yet. Its "on the table", but they may get to it this week. There is still time to write your legislator.

Becker - I met with Heffley back in March. That guy is misguided with regards to trout and how the management of trout will affect recreation in his district. Not good!

Some of us from our TU chapter meet with our local rep Joe Emerick, who was on the committee. He told us that he was a sportsman and enjoyed the outdoors. Then in the next breath he said he will vote yes for this bill. His reason was that once something is placed on the endangered species list, it never comes off. This hurts businesses that have to comply with the laws to protect these species.

Rep Phyle, I think I spelled his name correctly, said that he proposed this bill because if it weren't for some endangered species in his district he would have more businesses relocating there.

It's all about the money. Remember these guys when it comes time to vote. They are counting on people having short memories.
