Thanks Stenonema, I appreciate it. When I have time, I will post a few more bigger fish.

Trust me, I debated taking it, but out of hundreds of trout caught each season I usually kill 0 to 1 at the most. I don't eat em, no one in my family does, no reason to kill em. The few that I have taken over the years all went to the wall. Never wasted in the freezer.

And as you said, many, many 20"+ went back safely.LOL

Thanks again man.
