For you stat nuts - like me - here you go:

I've fished Hayes 23 times(1995-2012). On my career list of Pa trout streams fished, it ranks 41st based upon trout caught per visit(23.4). 12 brook trout and 527 brown.

23.4 sounds great to most but for being a Class "A" stream. fairly remote and with 3+ miles of continuous access, its not a good number from an angling success pov.

Its also interesting that among my "Top ten" best streams. only 4 of them are Class "A"., In fact the top three are not "A". Just goes to show that there are some great public waters out there not on any list - as of yet.

Disclaimer: my #'s are mostly based upon spin fishing which I do about 90% of the time. Of the 23 trips to Hayes, only two were ff and none particularly good(6 and 8 fish respectively)
