BB,

I have a Cabela's SLi 9ft 6wt 4pc, Rod was made in the USA with either a Loomis or St Croix blank. I'm thinking GL3 or Legend. TiCH guides and nickel silver/amboyna burl REC reelseat. Aluminum tube and rod sock. They came with a 25yr warranty. Retail on the rod was around \$325 or so 4-5 years ago. It's only been used about a dozen times. I'll add a LLBean Orion fly reel with WF6F SA Bass line. Even trade the Ross if you're interested.
