I stopped at the Orvis store last Sunday (11/17). I think they'll do O.K. Good selection of gear from the Clearwater line of products all the way to the Helios line. What will probably be the thing that helps the most for their is gift cards. Lets face it, most of us already have all the gear we need and you don't buy a new high end rod or new pair of waders everyday but when you get a few gift cards during the holidays, it will let you splurge a bit.
