Who Is Fishing Slate Run?

There were many places I fished in PA. some I would have to be water boarded before I ever mentioned their locations on a forum but others that are quite well known. I used to fish the run in the title way before the movie came out and before Jeep introduced the Orvis Edition Cherokee.

I was in PA. last May 2012 for just a few days and did go up the run. Numbers seemed to be down a bit, have there been events in those mountains that effected the population?

Anyway, I've started a thread topic now and will be interested to hear the replies. If you guys want to know things about Alaska you're welcome to ask and I will answer as I can.
