I fished Spring Creek the day before on the 21st. I saw quite a few active redds. I stopped and watched several. It was funny watching the smaller browns(8 to 10 inchers) lying in wait just for the chance to charge in a grab a snack of fresh trout eggs before being chased away by the occupants. I did see a man and woman fishing together with spinning tackle but no one else on the stream. I ended up catching an even dozen browns including a very colorful 18 inch male. Fly of the day, you guessed it, egg patterns. Good day on the stream. At least I did'nt fall in this time. LOL
