I fish a lot with nymphs and started using a furled fluorocarbon leader last year. I am not sure if it was the fluorocarbon leader or not but I had better than usual outings. I made my leader using 2 lb test spider wire. I used the following website as a guideline for making my leaders:

<http://www.hatchesmagazine.com/page/may2006/185>

Until I got the hang of it, I did break a couple of leaders twisting the line too long.

Don
