I got some Allen hooks, but they were way off from what I am used to. I use Daichii Hooks as that's what my shop carries.

Comparing the hooks, the Allen's were bad. I had many per pack that the hook gap was off and the lengths varied.

I got some beads and they were good but I was not impressed with the hooks. I know a lot of people really like them but I got a bad batch. I had gotten almost 10 packs of hooks and it was the same across the board.
