I'm going to CA and plan to do a little surf fishing for surf perch while I'm there. I have never fished the surf before and have no idea where to begin. I plan to use a 10 ft. 7 wt. rod. What kind of line should I use? Do I want to be fishing when tide is coming in or going out? I welcome any and all advice as I know NOTHING about this kind of fishing. I'm hoping some of you striper guys can help point me in the right direction. Thank you in advance for your help.
