evo.....i didn't do the surf much , mostly a jetty journey so far but you make a great point , i finally just said the heck with it and hit it and hit it and hit it and learned what i've learned on my own and in the end , bottom line , IT'S MORE FUN THAT WAY anyhow. The folks on here are great and i've never had anything but positive results with questions but out there on the rocks in Jersey , even to an old one legged , harmless old fart , it's pretty cold.
