Fishwagen.....Big Spring is a pretty "short" creek , not but a few miles of stream from the source at the ditch to the mouth , right below the old waterwheel mill in downtown.....heh.....Newville. I used to live there , 80's n 90's. Anywhere along it's short run can produce fish , use your gut feeling and the folks there are great , ask questions to whoever you encounter while fishing , the locals are all more than happy to share their TREASURE. GOOD LUCK!!!! Let us know how things turned out.
