On the access that has been revoked off of Long Lane, I'm having a hard time picturing what stretch this is, since the creek doesn't intersect Long Lane anywhere. Is it one of the farms that has a driveway off of Long Lane?

I think they may be referring to the section of stream downstream from route 23, it does intersect Long Lane before crossing route 441. I never fished this section of Donegal but I think it is part of the special regulations water.

I totally agree with your concern for the bad feelings of an adjacent landowner toward fisherman. I hope we can keep it to dull roar because this landowner is going to have the occasion to meet a lot of flyfishermen with as popular a spot that it was to access the stream for many years.
