What's a factory second?

Lamson builds fly reels to exacting standards. Sometimes in the process of building a great reel, things don't go perfectly. Accidents happen. Each of these reels has some sort of imperfection. It could be a small scratch, dent, ding, anodizing problem, etc. On most of the reels, we couldn't actually see the imperfection, if we could find it, you'll see a photo of it.

Every factory 2nd reel is covered by Lamson's Lifetime Warranty - the same warranty you get with a brand new reel.
