I can understand some of the urban fisheries being stocked. The ones in park systems where there are tons of open space for anglers to use. I completely understand that. Po still makes no sense.

You want to know why the Po gets such high angler use on the first day? Pretty simple really. There are 2 streams in the Lehigh area. There are more, but these are the two main ones. Pohopoco and Mahoning. They are less than 5 miles away from each other, yet opening day is different. Mahoning opens the first opener and Po the second. I guarantee if both those streams were opened the same weekend, angler traffic would be cut in half. The meat hunters would be sooooo torn on which one to go to. You give them both on separate openers and they can just hit each one.
