My gear bag was falling apart, it lasted me 20 years, it was a MacGregor duffel with side and front pockets. Big enough to carry everything that goes with me flyfishing except my rods. I think I paid \$25 for it around 1992 at Dicks.

So I started looking around for one and they are \$100-\$200 from FF retailers. I found one at a discount clothing store that is Over/under (for waders and boots) has wheels and a tote handle made by ful. Its was \$100 marked down to \$29.

I am very pleased so far. Mine is black
