Thanks for the advice gentlemen.

I have noticed I tend to get excited when I see fish and move too quick. Reaching into my head a bit, I have fished native brookies before, but only once, and yes, very spooky.

It should be good to start learning a new stream, and hopefully catching a few. I probably wont be up there for another month or so but I will let you know how I do. It looks like a beautiful stream with the headwaters more secluded.
