Has anyone tried the Harvey pusher night fly? I know that it is not a typical mouse pattern, but the fact that it takes big fish at night makes me suspect that it mimicks a swimming mouse. I don't have a good picture, but there is one posted by Fishidiot in [this thread](#)

Here is the pattern I have:

Hook: 2/0-8/0 XL

Thread: black

Tail: Stiff feather kickers

Body: black or other dark dubbing

Wing: Pheasant body feathers

Hackle: Black or other dark palmered

I've no experience with the fly, just curious to hear more about it.

Mike.
